

INSTALLATION INSTRUCTIONS for Door Spring Kit 675611CM

THIS KIT CONTAINS:

- Door Counter Balance Spring
- Retainer
- Instruction Sheet

Instructions

1. Put the long end of the retainer onto either end of the door counter balance spring. (See Figure 1) Hook the loop end of the retainer over the hook on the spring.
2. Mount the end (without the retainer) of the spring into the slot or hole on the door support. (See Figure 2) Keep tension on the retainer by holding it. Put the exposed end into one of the notches.
3. Adjust the spring so the door closes easily without slamming.

NOTE: The door adjustment is done by changing the retainer from one notch to another.
